## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to teach a combination of the steps of:

a mechanism for selecting from said data packets according to their respective destination addresses, said mechanism for establishing a second order for transmitting said data packets that is different from said first order, said second order based on respective destination addresses of said data packets, said second order comprising all of said data packets received in said first order, said second order established by first selecting one data packet having said first destination address and second selecting one data packet having said second destination address, wherein said first selecting and said second selecting are alternated such that in said second order said data packets are alternately distributed between said first and second destinations, in the specific combination as recited in the claim.

Regarding claim 6, the prior art fails to teach a combination of the steps of:

prior to transmitting said data packets, establishing a second order for transmitting said data packets that is different from said first order, said second order based on respective destination addresses of said data packets, said second order comprising all of said data packets received in said first order, said second order established by first selecting one data packet having said first destination address and second selecting one data packet having said second destination address, wherein said first selecting and said second selecting occur on alternate turns such that in said

second order said data packets are alternately distributed between said first and second destinations, in the specific combination as recited in the claim.

Regarding claim 16, the prior art fails to teach a combination of the steps of:

wherein said device executes a driver that selects from said data packets according to their respective destination addresses, said driver for establishing a second order for transmitting said data packets that is different from said first order, said second order based on respective destination addresses of said data packets, said second order comprising all of said data packets received in said first order, said second order established by first selecting one data packet having said first destination address and second selecting one data packet having said second destination address, said first selecting and said second selecting alternately continues through said data packets such that in said second order said data packets are alternately distributed between said first and second destinations, in the specific combination as recited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
